VOLUME II: MAPS

ERRATA SHEET

Because the comments received on the draft EIR/EIS necessitated few changes to the maps, volume II has not been reprinted but is incorporated into the final EIR/EIS by reference and this errata sheet. The few changes to the maps in volume II are as follows:

- Because the Oakland Segment was dropped from Mojave's proposed project, all references to the Oakland Segment should be ignored. These references occur on maps 28, 33, and 34, figure 1/overview, and figure 1/index for alternatives.
- On map 28, the stockpile area 1 mile northwest of milepost 0 of the Palo Alto Segment was not depicted.
- On map 29, the current boundaries of Ed Levin County Park extend northward to the Alameda County/Santa Clara County border.
